**INDEPENDENT AUDITORS' REPORT**

To the Board of Directors  
Orangutan Foundation International  
Los Angeles, California

We have audited the accompanying statements of financial position of Orangutan Foundation International (a non-profit organization), as of December 31, 2014 and 2013, the related statements of activities, and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and the maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

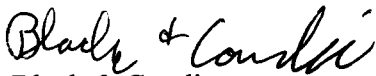

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Orangutan Foundation International as of December 31, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

**ORANGUTAN FOUNDATION INTERNATIONAL**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2014**

**NOTE 8 – FAIR VALUE MEASUREMENTS - continued**

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority.

Level 2 inputs consists of observable inputs other than quoted prices for identical assets, such as quoted prices for similar assets or liabilities, or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or other valuation techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The following table represents assets and liabilities reported on the statement of financial position at their fair value as of December 31, 2014 and 2013 by level within the fair value measurement hierarchy.

<u>Description</u>	<u>Amount</u>	<u>Fair Value Measurements at Reporting Date Using</u>		
		<u>Quoted Prices in Active Markets for Identical Assets</u>	<u>Significant Other Observable Inputs</u>	<u>Significant Unobservable inputs</u>

For the remaining current assets and current liabilities, the carrying amounts approximate fair value because of the short maturity of these instruments.
